COMPANY PROFILE

Accent Controls, Inc. (ACI), is a dynamic and diversified company, assisting government and industry through the application of innovative technologies and management techniques. ACI combines the high-performance solutions of our biggest competitors with the responsiveness, flexibility, and cost leadership that are hallmarks of a customer-centered businesses. We provide metric-driven systems that enable continuous improvement. Our experience with commercial best practices uniquely positions us as an innovative and cost-minded partner. By providing experienced leadership through accomplished team members and senior key personnel, we offer a team positioned to support contracts from the onset. ACI has successfully completed prime contracts and second-tier projects with the Defense Logistics Agency (DLA), US Navy, US Army, US Air Force, US Marine Corps, US Army Reserve Command, and General Services Administration.

Our core competencies include:

- warehousing and distribution
- engineering and automation
- facilities management, maintenance, repair, and construction
- logistics, vehicle maintenance, and fleet management
- base operations support services

Certifications:

- ISO 9001:2015 [Quality Registered](#)
- UL 508a Panel Manufacture Shop
- Rockwell Automation Certified Professionals
- Wonderware Registered System Integrator Partner
- Universal Robots Certified System Integrator

ACI has received numerous awards and accolades from our government and industry partners for exemplary service and quality product.

We are not content with merely performing a contract status quo; we seek to improve every process until we exceed our customers' expectations. We combine high performance solutions with the responsiveness, flexibility, and cost leadership that are hallmarks of a customer-centered small business, setting us apart from our competition. Our corporate philosophy and experience, provides our customers with accomplished personnel, strong customer partnerships, and an in-depth understanding of operations to be responsive on the first day of contract start.

LABOR CATEGORY DESCRIPTIONS

Labor Category	Education Requirement	Minimum Experience	Labor Category Description
Program Manager	Bachelor's Degree	8 years Experience	<ul style="list-style-type: none"> Serves as senior corporate representative responsible for overall contract performance. Directly supervise a number of managers depending on scope/size of contract. Directs all technical, financial management and administrative activities. Coordinates staffing and resources to meet contract requirements, including schedule, budget & quality. Provides technical, organizational & business leadership. Determines a course of action and sets priorities for project completion.
Project Manager	Bachelor's Degree	6 years Experience	<ul style="list-style-type: none"> Senior management representative. Responsible for overall management & completion of assigned tasks from the Program Manager. Allocates resources and monitors progress for assigned tasks. Provides technical and management expertise as necessary to resolve issues and insure timely completion of assigned tasks.
Logistic Manager III	Bachelor's Degree	8 years Experience	<ul style="list-style-type: none"> Serves as lead logistic expert responsible for the overall coordination and completion of logistic functions. Directs technical efforts of logisticians assigned and/or other logistic managers. Provides technical expertise in the planning, development, management, operation and maintenance of logistics systems. Coordinates/reports logistic issues to more senior logistic & project managers.
Logistic Manager II	Bachelor's Degree	4 years Experience	<ul style="list-style-type: none"> Directs technical efforts of logisticians assigned. Provides technical expertise in the planning, development, management, operation and maintenance of logistics systems. Reports & coordinates logistic issues with Program & Project Managers.
Logistic Manager I	Bachelor's Degree	2 years Experience	<ul style="list-style-type: none"> Directs technical efforts of a smaller group of logisticians in area of expertise. Reports & coordinates logistic issues with Project Managers.

Labor Category	Education Requirement	Minimum Experience	Labor Category Description
Acquisition Logistic Specialist IV	Bachelor's Degree	8 years Experience	<ul style="list-style-type: none"> Serves as lead acquisition expert for the overall coordination and completion of acquisition logistic function. Directs technical efforts of all acquisition logisticians assigned and/or other acquisition logistic managers. Provides technical expertise in all acquisition logistic functions associated with the design, development, test, production, fielding, sustainment or disposal of logistics systems.
Acquisition Logistic Specialist III	Bachelor's Degree	4 years Experience	<ul style="list-style-type: none"> Directs technical efforts of acquisition logisticians assigned. Provides technical expertise in all acquisition logistic functions associated with the design, development, test, production, fielding, sustainment or disposal of logistics systems. Reports & coordinates logistic issues with Program & Project Managers.
Acquisition Logistic Specialist II	Bachelor's Degree	2 years Experience	<ul style="list-style-type: none"> Directs technical efforts of a smaller group of acquisition logisticians in area of expertise. Reports & coordinates logistic issues with Project Managers. Provides acquisition logistic functions associated with the design, development, test, production, fielding, sustainment or disposal of logistics systems.
Acquisition Logistic Specialist I	Associates Degree	Entry Level	<ul style="list-style-type: none"> Provides acquisition logistic functions associated with the design, development, test, production, fielding, sustainment or disposal of logistics systems.
Logistic Engineer IV	Bachelor's Degree	6 years Experience	<ul style="list-style-type: none"> Responsible completely for the research, design, development & engineering analysis for a wide range of technical logistic programs. Provides leadership and expertise in technical analyses, and complex technical problems. Provide engineering solutions to improve equipment & logistics performance and life cycle costs. May supervise other engineers or technical task groups or personnel.

Labor Category	Education Requirement	Minimum Experience	Labor Category Description
Logistic Engineer III	Bachelor's Degree	4 years Experience	<ul style="list-style-type: none"> Independently performs research, design, development & engineering analysis for assigned technical tasks. Generates and reviews engineering design specifications. Through coordination with other disciplines, defines project specifications and requirements to meet all project objectives. Provide engineering solutions to improve equipment & logistics performance and life cycle costs.
Logistic Engineer II	Bachelor's Degree	2 years Experience	<ul style="list-style-type: none"> Performs research, design, development & engineering analysis for assigned technical tasks with supervision. Generates and reviews engineering design specifications for more simple design projects. Prepares technical presentations & analyses. Provide engineering solutions to improve equipment & logistics performance and life cycle costs.
Logistic Engineer I	Associates	Entry Level	<ul style="list-style-type: none"> Performs basic research, design, development & engineering analysis for assigned technical tasks with supervision. Generates and reviews engineering design specifications for more simple design projects. Prepares technical presentations. Provide engineering solutions to improve equipment & logistics performance and life cycle costs.
Operations Logistic Manager III	Bachelor's Degree	6 years Experience	<ul style="list-style-type: none"> Serves as lead operations logistic expert for the overall coordination and completion of operations logistic function. Directs technical efforts of all operations logisticians assigned and/or other operations logistic managers. Provides technical expertise in all operational ILS elements, with expertise in the development & management of distribution systems; transportation system development & management; carrier management & routing; and freight forwarding for the movement of goods, supplies, equipment or people. Provides expertise in supply tracking system design and operations.

Labor Category	Education Requirement	Minimum Experience	Labor Category Description
Operations Logistic Manager II	Bachelor's Degree	3 years Experience	<ul style="list-style-type: none"> • Directs technical efforts of operations logisticians assigned. • Provides technical expertise in all operational ILS elements, with expertise in the development & management of distribution systems; transportation system development & management; carrier management & routing; and freight forwarding for the movement of goods, supplies, equipment or people. • Reports & coordinates logistic issues with Program & Project Managers.
Operations Logistic Manager I	Associates Degree	1 years Experience	<ul style="list-style-type: none"> • May direct technical efforts of a small group of operations logisticians in area of expertise. • Reports & coordinates logistic issues with Project Managers. • Provides operational logistic functions associated with the development & management of distribution systems; transportation system development & management; carrier management & routing; and freight forwarding for the movement of goods, supplies, equipment or people.
Technical Publications Writer/Editor	Bachelor's Degree	3 years experience	<ul style="list-style-type: none"> • Responsible for writing original technical or logistic instruction manuals, training manuals, specifications, procedures, standards or reports.
Technical Trainer II	Bachelor's Degree	3 years Experience	<ul style="list-style-type: none"> • Performs training in software design, engineering and analysis of functional tasks. • Conducts training demonstrating how to install, generate maintain, test and debug system software. • Responsible for preparing and updating training plans
Technical Trainer I	Associates Degree	1 years Experience	<ul style="list-style-type: none"> • Performs training in software design, engineering and analysis of functional tasks. • Conducts training demonstrating how to install, generate maintain, test and debug system software. • Responsible for preparing and updating training plans
Technical Illustrator	High School Diploma	3 years Experience	<ul style="list-style-type: none"> • Capable of producing illustrations in a variety of artistic styles using freehand, drawing tools or computer graphic techniques.

Labor Category	Education Requirement	Minimum Experience	Labor Category Description
